May 16, 2018

Dear HSQ Customer,

Registration is now open for the next *HSQ Factory Certified Training* sessions.

In an effort to provide the tools necessary for you to be successful, we will be conducting RTU Technician and MISER Training seminars led by our qualified instructors. These hands-on, comprehensive courses will be offered at our Hayward, California facility and last for three days each.

The first training session begins Wednesday, October 3, 2018 and is designed for the RTU Technician. The second session begins on Tuesday, October 9, 2018 and is intended for the MISER Operator and/or MISER System Manager. The exact training content will be dependent on the aptitude of the students. If necessary, there will be MISER Operator and System Manager Training classes running concurrently.

If registering for MISER Training, please specify whether you are interested in MISER Operator Training or MISER System Manager Training.

The cost for these classes is \$1,950 if taking one class and \$3,600 if taking two. A \$250 discount will be applied if the student registers for both classes by July 31, 2018. Final registration ends September 21, 2018.

Register early, seating is limited. Classes can be paid with a P.O. or in full by July 31, 2018.

If you have any questions, feel free to email us at [training@hsq.com](mailto:training@hsq.com) or you can call Cherie Davis at (510) 259-1334 x706. A registration form is available at [www.hsq.com/training](http://www.hsq.com/training).

We look forward to seeing you, and please let us know if we can help you in any way.

Sincerely yours,

HSQ Technology
